

CONDITION SERIOUS.

The President Suffered a Relapse Last Night and for a While Life was Despaired of. There was a Slight Rally This Morning, But His Condition Is Still Most Critical.

Buffalo, Sept. 13; 1:05 p. m.—At 12:30 the president was still sleeping. His condition is unchanged and there are no new developments. His physicians say if he can be taken through the night without further decline, there will be hope for him. Mrs. McKinley hasn't been told, but seems to fear the worst.

A dispatch from Buffalo dated 1:15 state: The president is gradually sinking, with rallies. His heart is failing. His stomach fails to assimilate food, and the end may come at any time. All officials have been sent for.

Buffalo, Sept. 13, 1:45.—This afternoon physicians are guarded in their statements only saying that the president has a fighting chance, and they hope for the best.

The president slept from 10 o'clock until 1 this afternoon.

While hoping for the best, preparations are being made for the worst. The vice president and cabinet are hurrying on special trains. Much confidence is felt in their judgment, and their coming is anxiously awaited.

AFFECTS STOCKS.
New York, Sept. 13.—The stock market was affected by the president's crisis, and opened feverish with wide fluctuations. Feasible rallies were not held, and the feeling continued excited.

THE FIRST BULLETIN
Buffalo, Sept. 13, 8 a. m.—The president took a turn for the worst after midnight, growing steadily worse until 4:30. The doctors held out little hopes for his recovery and once or twice death seemed very near. At 6:30 a slight rally had occurred, but his condition is still most critical.

Buffalo, Sept. 13, 8:45 a. m.—Mr. Milburn has just said he thinks that the president has a fighting chance for his life. The physicians began dressing the wound at 8 o'clock.

The city was aroused before 6 o'clock this morning by the news about the bulletin boards and the Milburn residence, eagerly awaiting the latest news.

MORE ENCOURAGING.
Buffalo, Sept. 13, 9:15 a. m.—Physicians reported slight improvement in the president's condition at 9 o'clock. He seems to be responding to stimulation more readily and Dr. Myer stated:

"We have not given up hope, in any means."

Buffalo, Sept. 13, 10:41 a. m.—Although the president's doctors say they have not abandoned hope, their statements leave room for but little hope. All dread what the day may bring.

NOON.
Buffalo, Sept. 13.—Physicians leaving the Milburn House at 11:30 said the president was holding his own, but further than this declined to express themselves. Senator Hanna says with a fighting chance and the president's strong courage, he will yet pull through. The president slept an hour today.

THE TROUBLE.
Buffalo, Sept. 13.—The trouble and source of danger now is in the stomach and bowels. The amount of relief in the urine indicates a disturbance in the gastro-intestinal canal, called in medical terms intestinal toxemia. The fact is that the president should not have been allowed to take any food through the stomach because of the wound in that organ. Nourishment therefore was administered as

WILL BE HEARTY

Mayor Lang Promises Appropriate Entertainment For Delegates

TO WATERWAYS CONVENTION

"The Kentucky" May Be Selected as Place of Holding the Sessions.

A BANQUET TO BE GIVEN

Mayor Lang is authority for the statement that the delegates to the waterways convention will be well looked after when they come to Paducah next month. The details have not yet been arranged, but the place for holding the meeting, and the program for the entertainment will be decided on as soon as practicable.

"We will have to provide a suitable place for holding the sessions," said Mayor Lang this morning, "and if the council chamber will not suffice, we will make an effort to get 'The Kentucky'."

"The visitors will not doubt be given a carriage ride, if they care to see our city, which they will probably want to do, although it is said that river men cannot ride in carriages. And there will of course be a big banquet, for no meeting of its magnitude and importance would be complete without a banquet."

"The convention of this body of distinguished men is something that we had been after for some time, and it is quite a compliment to a city the size of Paducah to get such a big meeting. It will be a good thing for the city and every branch of business and we feel proud of being selected as a place for the convention, and owe our thanks to the gentlemen who secured it for us."

"The visitors will be treated as well as they have ever been anywhere, I am confident, and while arrangements have not yet been mapped out, we will surely do everything for the entertainment of the delegates."

It is probable that Mayor Lang will deliver the address of welcome, but if he does not, one of the prominent local river men will be selected.

FALL RECRUITING.

WAR DEPARTMENT WANTS KENTUCKY CALVARY MEN.

Washington, Sept. 13.—The war department is beginning the fall recruiting campaign with vigor. Especial attention is to be paid to Kentucky. The government hopes to recruit there largely for the cavalry, though recruits for infantry and artillery engineers and staff corps will, of course, also be taken.

The state is to be placed in charge of Maj. John B. Rodman, of the Twentieth infantry. He will make Louisville his headquarters. In the northern states it has been found that the best recruiting was done in the large cities. Major Rodman, however, can use his discretion and can establish recruiting stations in any likely part of Kentucky.

FINNISH SENATORS REMOVED.

St. Petersburg, Sept. 13.—Tuesday the Finnish senators Esmen, Heikel, Nummeln and Ransay were removed for "opposing the emperor's commands." They voted official publication of the new military law. Twelve senators favored publication.

MASSACRE OF ARMENIANS.
Constantinople, Sept. 13.—Persistent rumors are in circulation here of a massacre of Armenians at Masnah. The report is officially denied, but the governor of Rila and eight battalions of troops have been ordered thither.

FOR ENTERTAINING OZAR.
Berlin, Sept. 13.—The French government, according to dispatches from Paris, will ask a credit of 2,000,000 francs for entertaining the czar.

RECTOR REED.

SUSTAINS PAINFUL INJURIES FROM A FALL FROM HIS BICYCLE.

Rector H. E. Reed, of the Episcopal church, met with a serious accident in front of that church this morning about 9 o'clock while preparing to ride to town on his bicycle.

He mounted the wheel of the bridge in front of the church and before he had gone three feet the front wheel struck a rock or some other obstruction which turned and threw Dr. Reed to the ground. He struck the curb and remained there in an unconscious condition. He was picked up and taken to the porch of the church where he remained until Dr. Hicks and his wife and daughters arrived. He was unable to walk and had to be carried to his residence on Court street where an examination of the injuries was made. There were no bones broken but his hips were badly bruised and also his head and back are in a like condition.

After an examination had been made it was found that the injuries are not of a very serious nature although they will confine the doctor to his room for some little time. There are many very painful bruises on his person but the shock more than any thing caused him more injury. Dr. Braun, of Baltimore, a young physician lately arrived here was the first to get to him when he fell and rendered very valuable assistance.

GEN. BOOTH COMING.

New York, Sept. 13.—General William Booth, founder and commander of the Salvation Army, is due to arrive in New York September 24, and elaborate arrangements are being made for his reception. General Booth will remain in this city until October 8. He will then start on a tour of the United States, extending to the Pacific coast, returning to New York during the first week in February, and sailing for Europe on the 8th of that month.

GROOM 80; BRIDE ONLY 20.

Danville, Ky., Sept. 13.—Mr. Price and Miss Luma Preston, of Junction City, were married at that place Monday evening. The groom is 80 and the bride 20 years of age.

IN SOUTH AFRICA.

A LIVELY SCRAP REPORTED IN THE RIVERSDALE DISTRICT.

Pretoria, Sept. 13.—While Colonel Mingo's column was returning from a raid, east to Dordrecht, it was attacked by the Boers under Commandants Ponce and Myburgh, in Wolkebloff. The advance guard was well in the pass when a terrific fire was opened upon them from the heights above the Kloof. The British were in a precarious position on the flat, where there was little or no cover, but they rapidly outnumbered and returned a brisk fire. The fighting continued for some time.

The British had four wounded. It is reported that the Boers had four killed and a considerable number wounded.

On the following morning a reconnoitering force with big guns cleared Wolkebloff of the Boers, who retreated in the direction of the Draakenburg. The British followed the burghers for a considerable distance, shelling them incessantly.

NO EVIDENCE.

EMMA GOLDMAN WILL IN ALL PROBABILITY GO FREE.

Buffalo, Sept. 13.—"We have not sufficient evidence to warrant the holding of Emma Goldman," District Attorney Phelps announced this afternoon just after he had a conference with Sept. Bull. "We have not prepared any papers, and of course have sent none on. Neither do we intend to prepare any extradition papers. You may say on our present evidence we can not hold the Goldman woman, and no extradition papers will be prepared today."

TRYING TO SETTLE.

H. & O. STRIKE.
Washington, Ind., Sept. 13.—Striking men on the Baltimore and Ohio Southwestern railway threatened to block traffic at Hinton. Twelve deputy sheriffs, well armed, hustled to the scene on a special train and prevented violence. B. Frank Smith, state labor commissioner, arrived today and is trying to bring about a settlement of the big strike.

CLEARED OF INVADERS.

ALLEGED BOER SPIES ARRESTED IN THE RIVERSDALE DISTRICT.

Cape Town, Sept. 13.—The Riversdale district of Cape Colony has been entirely cleared of the invaders. Two alleged Boer spies have been arrested at Mossel Bay.

The Dordrecht volunteers surprised a party of Boers near a farm house and ordered them to surrender. The Boers refused to surrender, and the British opened fire, wounding Gen. Smuts and another Boer and killing Capt. Arbenderoff. General Smuts succeeded in making his escape.

FARMER HANGS HIMSELF.

Anburn, Ind., Sept. 13.—William Cullers, aged thirty, residing east of Anburn, on a farm, was found hanging in the barn, having committed suicide. A hitching strap was used to make the loop, and when found was tied to a rafter and his feet touching the floor. Cullers was unmarried and no cause for the rash act is assigned.

PAPERS SERVED.

CORONER PHELPS SENDS A DEPUTY TO SHERIFF ROGERS.

The papers in the Lee Walters vs. J. H. Rogers \$10,000 damage suit have at last been served. Coroner Phelps swore Mr. Sam Givens in as his deputy and Mr. Givens served the papers on Sheriff Rogers. The case will not be tried this term of court as the suit was not filed until after the limit but it will be taken up at the next regular term.

NO COUNTY FAIR.

THE PROJECT HAS NOW FALLEN THROUGH IN PADUCAH.

The project on foot to hold a county fair here this fall has gone by the board, and the effort will be abandoned. The cause is that a fair such as was contemplated could not be given at the grounds, the promoters not being allowed to permit beer or pools sold, or to have the usual adjunctions that go to make a fair a success.

Several gentlemen from Madisonville were interested in it, but have now abandoned the idea.

CIRCUIT COURT.

ED MUSE, CONVICTED OF PERJURY, GETS ONE YEAR.

The case against Ed Muse, colored, for perjury, was finished this morning, the jury returning a verdict of guilty and fixing his sentence at one year in the state penitentiary. He swore in the police court that he did not throw a tin can at a woman.

The case against Dave Rivel, for breaking into a boxcar, was dismissed.

The case against Sydney Greer and Harry Sanders, colored boys, who were charged with housebreaking and who are now in the state reform school, was filed away. The boys staid in jail for several months before room could be made in the reform school.

The seduction case against Lee Page was filed away as the defendant can not be located.

By previous agreement the case against Ed Ward, for nuisance, was dismissed. Ward was recently captured in Memphis and brought here for a judgment of \$500 which he paid with the understanding that the other judgments against him would be dismissed.

The case against J. L. Hunter, for keeping a disorderly house, was continued. Mr. Hunter ran a commission house on lower Broadway and was indicted at the last sitting of the grand jury.

The case against Ulrich Beyer, for false swearing, was continued.

CHAIRS ARRIVE.

TOMORROW THE WORK OF PLACING THEM BEGINS IN THE KENTUCKY.

The chairs for The Kentucky are expected this afternoon, and if they arrive the work of placing them in the house will begin in the morning, and then about all that will have to be done will be to lay the carpet down stairs.

BISHOP WHIPPLE

DANGEROUSLY ILL.

St. Paul, Sept. 13.—Word was received here that the venerable Bishop Henry B. Whipple, of the Protestant Episcopal church, is dangerously ill at his home in Fastholt.

POLICE COURT.

WILL HORTON ACQUITTED OF MALICIOUS OUTTING CHARGE.

The case against Will Horton for maliciously cutting and striking Thomas Kalor was dismissed the defendant claiming that he had cause to strike the man in self-defense. The evidence was not very clear and the case was settled by a dismissal.

Will Russell, Will Brandon and Will McCormick, white, were arraigned before Judge Sanders this morning on the charge of drunk and disorderly conduct. They were arrested yesterday afternoon while drunk and throwing rocks on the streets. The case was partially heard and left open for further investigation.

Henry Fields, white, who was arrested several days ago for cursing on the streets was fined \$5 and costs this morning on motion of the prosecution attorney.

Mose Ellis, colored, who was charged with a breach of the peace was dismissed.

Carry Ward and Hattie Dooly, white, were up for engaging in a fight. The former was fined \$1 and costs and the case against the latter dismissed.

Robert Willis, for drunk, was fined \$1 and costs.

MIDWAY MARRIAGE.

STREETS OF INDIA AND GERMAN VILLAGE FURNISH CONTRACTING PARTIES.

Bowling Green, Ky., Sept. 13.—There has been a wedding among the people of the midway, who are here with the Canton Carnival Company. Will Theodore Springle and Miss Amelia R. Fraz, accompanied by Miss Emma Niemeyer and Abraham Lincoln, the latter an Egyptian, went in the residence of Dr. O. K. Marshall, pastor of the Christian church, and were married.

The groom is an attaché of the streets of India, and the bride a cornet soloist in the German village. The former is from Baltimore, Md., and the latter from Rosel, Kan.

SAD AND UNEXPECTED NEWS.

The nation is again plunged in sorrow over the sad and unexpected news of our president's demise. The intelligence is all the more poignant because it came at a time when every one thought the patient was on the road to recovery, and would soon be able to be moved to his home in Washington. It came as a great shock to the entire country, for it seems to carry with it diminished hope. As long as there is life, however, there is hope, however small, and the best will be prayed for, and we trust will come to pass. While it was generally believed that the president was holding his own well, a great many were not so sanguine, and feared that the wound was worse than appeared, and owing to the age of the patient, and the inevitable danger of such wounds, recovery was by no means certain. A sad and hopeful people will await the news from the bedside with renewed eagerness and solicitude.

Able men on both sides of the ocean are making a constant effort to extend the principle of arbitration, says the Saturday Evening Post. Enlisted in this movement are boards of trade chambers of commerce, legislatures and organizations of capital and labor. Sentiment rules the world. For centuries the war fever has been bred into our minds and dispositions, and national prejudices have time and again been too strong for the common sense of the people. The movement for arbitration is comparatively recent. At best it was one of those chimerical ideas which people accept as good in its way, but impracticable in the case of international differences. But steadily the faithful friends of the cause have made their appeals, and already they have won the spoken endorsements of nearly every nation of the world. Furthermore, they have convinced the people that war is a bad thing. Of course, we must not expect war to cease altogether any more than we may look for the immediate regeneration of the human race; but arbitration is making it less frequent and is bringing the peoples into that state of mind which more readily accepts the decision of an umpire.

Mayor Lang did not have to present the report of Milk and Meat Inspector Hensig to the council last night, and does not have to present it at any other meeting of the council. The ordinance regarding the office does not require the inspector to make a report to anyone, either the council or the board of health. If he did have to report, the document would doubtless be a mere formality, a perfunctory paper that like the reports of police captain, electric light superintendent, sewerage inspector and other officials, is presented to the council and filed without even being read. It would be little that the council would know about the condition of the respective departments if the reports were read, but as they are never read, the council can be safely said to know practically nothing about what is being done in certain departments, except that salaries are drawn with unfailing regularity.

Paducah has taken the initial steps toward procuring a public library and the council has pledged its support for the library, as an inducement to

Mr. Andrew Carnegie to endow the institution. Paducah has long needed something of the kind, and that it would be fully appreciated goes without saying. Paducah is now the most important city in the state outside of Louisville, and her progress has been steady in both population and commercial supremacy. There is a great future for Paducah, and Mr. Andrew Carnegie will never regret any donation he may make towards establishing a public library in the "Fridge of the Purchase," the coming city of Kentucky.

Cantrill's exhibition of bad taste in dragging up the Goebel case and making Kentucky ridiculous in the eyes of the world, says the Louisville Commercial, would indicate that he is the sort of Democrat who, when his own party becomes disgusted with him and refuses to elect him to office, is prone to bolt and try to get revenge through the Republican party. But let notice be given here and now, that when the Democratic members of the next legislature refuse to make Cantrill their nominee for United States senator, he need not apply for admission to the Republican party. Cantrill is about the worst that ever happened, even in the Goebelle Democra.

Mayor Lang declares that if the board of health can reduce the death rate one half, he is in favor of giving it full sway and allowing it to reduce it to nothing. "It reminds me of the prominent Paducahan who was told that by voting \$100,000 for bonds to place the streets in good repair, one half the expense of maintaining them would be obviated," said Mayor Lang yesterday. "You was a pretty smart man," replied the citizen, "but you not vote \$200,000 for bonds, and do away with the expense entirely?" So it is in this case.

It looks pretty blue for Col. Mott Ayers in his race for the legislature from Hickman and Fulton counties. There has been a factional fight between Col. Ayers and Bob Platt, both claiming the Democratic nomination, and according to the dispatches the county clerk of Hickman county announces that he will place Platt's name on the ticket under the rooster, which it is claimed will defeat Col. Ayers.

The city council should at its regular meeting Monday take some action relative to the meeting of the Ohio Valley Improvement Association here on October 23. We do not want any impromptu entertainment, hastily gotten up and poorly carried out, but a reception well planned, and completed in such a manner as to convince the visitors that some preparation was made for them.

The newspapers are taking a great deal of interest in the approaching meeting of the waterways convention here, and it behooves the people of Paducah to do likewise. From Cincinnati to Memphis notices appear almost daily about the session, and some of the things that are proposed to be done. Paducah should be fully prepared for it.

McCracken county's election commissioners have qualified and are ready for business. It is very probable that there will be a set of good, orderly election officers, for the three commissioners, Messrs. Dorian, Utterback and Sheriff Rogers stand high in the community, and will have no other kind.

Wickliffe comes to the front with the unique record of three negroes hanged at one time for murder, and according to reports the lynchings were all colored. That part of the country seems to be a good place for law negroes to fight shy of. They have no time to fool with the courts in such cases.

One of the most remarkable elections ever held was in Holly Springs, Miss., Tuesday. The people voted on a proposition to add one mill to the tax for general purposes, and the vote was 45 to 45, and the important matter will have to be settled at a subsequent election.

Now that Coroner Phelps has sufficiently recovered to marry, it is presumed that he will find time to write those papers on Sheriff Rogers. The transition from a hopeless invalid to a newly married man has been quite sudden in the genial coroner.

It is an awful threat. If the next council dare to be dominated by ungodly influences, the health officer proposes to apply the law to it. The present council can go ahead and do as it pleases. But let it let the new one try anything of the kind!

NO RELIEF FOR 20 YEARS.

COUNCIL ACTS

It Pledges Maintenance to a Public Library For Paducah.

THERE WAS NO OBJECTION

of Less Than \$2,500 and Not More Than \$4,000 to Be Appropriated Annually.

COMMITTEE TO ACT AT ONCE

The council met in called session last night with Mayor Lang and Councilmen Davis, Hymarsh, Jackson, Gillson, Johnson, Elliott, Knidolph, Jones and Smith present.

The object of the meeting was announced by the mayor. A deed from Mrs. Lizzie Leonard, of property for streets for \$100, was ratified.

Rev. G. W. Perryman, of the First Baptist church, stated that the Ministerial Association had taken up the matter of having Mr. Carnegie, the millionaire philanthropist, endow a library in Paducah, and that after writing him, the association was apprised of the fact that he would consider no proposition not containing a provision to maintain a library.

Mr. Pinkerton also spoke, emphasizing the fact that Mr. Carnegie not only provided a building, but the books as well.

After some discussion the following resolution, drafted by City Attorney Lightfoot, was read and adopted:

Whereas, it is the sense of the members of the common council of the city of Paducah that the citizens of the said city are in need of a public library and learning of the commendable disposition of the Hon. Andrew Carnegie toward liberal contributions for the establishment of such public institutions by municipalities where suitable provisions are made by such cities for the continued maintenance of such an institution. Now therefore be it

Resolved by the members of the common council of the city of Paducah that in the event of the said Andrew Carnegie making an endowment to the city of Paducah in any sum of money not less than \$35,000, that it is the sense of the common council that it will pass all measures and ordinances necessary for the appropriation of not less than \$2,500 annually and not more than \$4,000 annually for the purpose of maintaining the said library at the expense of the city of Paducah from funds to be collected by means of taxation to be levied each year.

There was not a dissenting vote to the resolution. Upon request of the Ministerial Association, Mayor Lang consented to act in conjunction with the association to secure the institution.

HOWISON EXCUSED.

NAVY DEPARTMENT TO FILL THE VACANCY ON THE SCHLEY BOARD.

Washington, Sept. 13.—The Schley court of inquiry yesterday afternoon adjourned after exonerating Admiral Howison from the board.

There are four points to be considered and decided upon by the court, as follows: First, the alleged delay off Cienfuegos, Cuba. Second, the alleged slow progress toward Santiago de Cuba. Third, the retrograde movement on the 36th and 37th of May. Fourth, the battle of Santiago and the destruction of Cervera's fleet.

BOWLING CONTESTS.

Messrs. George Goodman and G. P. Husbands will be captain of two bowling teams which begin a series of games at the Elite Alley Monday evening. Cooler weather prompts to witness quite a revival in the sport, and already large crowds congregated at the alley during both day and night.

COURT HOUSE CONDEMNED.

Hickman, Ky., Sept. 13.—The grand jury has condemned the court house as unsafe and a new one will be built.

Healthy Old People

say the main thing to do is to keep the stomach, liver and bowels in order if you want to keep well and live long. Good physicians say the same thing, too. The remedy called

RIPANS TABULES

while not mysterious or miraculous in its curative qualities, is a simple formula prescribed by the best physicians for disorders of the digestive organs. Just little Tabules, easy to take, easy to buy and quick to act. If your trouble is Dyspepsia, Biliousness, Headache, Dizziness, Constipation, Heartburn, and the like, no need of calling a physician. Ripans Tabules contain exactly what he would tell you to take. Permanent cure follows a fair trial. No uncertainty about it.

ONE GIVES RELIEF.

These are genuine and are made of all healthful and are not harmful to the system. They are not a secret, and are not a trade name. They are not a secret, and are not a trade name. They are not a secret, and are not a trade name.

Observationsat Random

The Memphis Commercial Appeal
tells this story:
During the visit of the president in
the south he sojourned at a certain
city not a thousand miles away. It is
not so large a place as it is famous.
The chief of police was asked to ex-
ercise great care that the president was
properly protected. The chief was a
practical man. He sent for two of the
best shots in his county, mounted
them on horses and told them to drop
the first man that made a move.
"Suppose the move is not hostile,"
asked a man who heard his instructions.
"We can't afford to take any
chances; if any man gets hurt when
he means no harm it will be very un-
fortunate, but I'm running this town
and I'm going to have an orderly day
if I have in kill half a dozen users,"
and the chief meant it.

It is told of a young drug clerk who
occupies a room over the store that
he could successfully vie with Rip
Van Winkle in the matter of sleeping
soundly, if not in sleeping long. The
other night he could not be aroused to
let the others up to their rooms. Every
conceivable kind of noise was made,
but to no avail. Finally a ladder was
procured, set against the house, and
an awful clatter made on his window.
He still slumbered on, and could not
be aroused until one of the panes was
removed from the window, and he
was liberally pummed with a pole.

Paducah is rapidly building up.
This was found out by the agent for Buffalo Bill,
Col. S. H. Benson, who spent two
days finding a place big enough for
the monster show. It is not that
Buffalo Bill is larger, for it was al-
ways as large as could be conveniently
carried about the country without
chartering a whole railroad to do it,
but simply that Paducah is building
up, and all the vacant ground hereto-
fore used by tented aggregations is
occupied. In the course of a few years,
timber will have to be removed
from the surrounding suburban districts
to make way for the onward march
of progress, or there will be no place at
all for circuses or Buffalo Bills. The
invasion of sacred circus grounds by
houses has been as rapid as it has in-
evitable, and the sites have gradually
moved from Ninth and Clay and Ninth
and Jackson out to Sixteenth street
and even farther.

Mr. J. Henry Smith, of North Fifth
street, has a hen that he would not
part with for any amount of money.
The difference in this particular hen
and any other is that it lays Easter
eggs. When Mr. Smith mentioned the
fact it was not given much credence
but when he substantiated his claim
with specimen of the multi-hued hen
fruit his word had to be taken.
"It is a strange thing," Mr. Smith
remarked, "that two hens have been lay-
ing eggs, with one and perfectly
brown, ever since last Easter and I
believe she has not laid a pure white
egg since that time. I consider it a
curiosity that is not often seen and
would not part with the chicken for
any consideration."

"I had a running sore on my leg for
seven years," writes Mrs. J. A. Forest,
of Chippewa Falls, Wis., "and spent
hundreds of dollars trying to get it
healed. Two boxes of Banner Salve
entirely cured it." Beware of substitu-
tes.
J. C. Gilbert.

SENTENCE COMMUTED.
Frankfort, Ky., Sept. 13.—Gov.
Beckham has commuted Holly Strat-
ton's sentence to life imprisonment.
He did this on account of the young
man's age, the conditions under which
the crime was committed and under
which he was reared.

Mr. C. A. Stillman, a merchant of
Tampico, Ill., writes: "Foley's Kid-
ney Cure is meeting with wonderful
success. It has cured some cases here
that physicians pronounced incurable.
I myself am able to testify to its mer-
its. My face today is a living picture
of health, and Foley's Kidney Cure
made it such."
J. C. Gilbert.

OAKS CASE DISMISSED.
Metropolis, Ill., Sept. 13.—An ac-
tion of the court at this time which is
of interest to the citizens of Me-
tropolis generally is the dismissal of
the case of Luetin Oaks against the
city of Metropolis for damages be-
cause of the death of her husband
Marshall W. E. Oaks. The case was
dismissed on demurrer. Marshall
Oaks, it will be remembered, was
killed by Dr. A. M. Covington,
who was also killed.

CONSUMPTION THREATENED.
O. Unger, 212 Maple street, Cham-
paign, Ill., writes, "I was troubled
with a hacking cough for a year and
I thought I had consumption. I tried
a great many remedies and was under
the care of physicians for several
months. I used one bottle of Foley's
Honey and Tar. It cured me and I
have not been troubled since."
J. C. Gilbert.

COAL! COAL!
If you want the best value for your
money, and prompt attention to
your order, ring up 291, or see W. Y. Noble
or John Rogers, and order Lazere
coal, the best Kentucky coal ever
mined, and sold at lowest prices.

MARTYRS TO SCIENCE.
Considerable discussion has been
caused by the death of two Spaniards,
in Havana, who had allowed them-
selves to be bitten by infected mosqui-
toes to test the theory that such in-
fection renders persons immune to yel-
low fever. Several persons thus bit-
ten escaped with a slight illness, but
two others died from severe cases of
fever. The medical authorities who
encouraged the experiments are said
to be severely condemned in Cuba.
The case opens up the whole question
of the legitimacy of such tests. The
New York Tribune says of it editor-
ially.
"Is it legitimate to subject oneself
to an experiment of this kind? And is
it right for other people to conduct
tests of such a character? While this
is a subject on which equally intelli-
gent and humane persons will prob-
ably differ, a good deal can be said in
defense of the practice under consid-
eration. The morality of the transac-
tion must depend, however, on the
circumstances of the case.
"If a man has a family dependent
on him or goes into the adventure in a
spirit of daredevilry, the proceeding
would be clearly wrong. On the other
hand, if he neglects no prior obliga-
tion to others, enters into the experi-
ment soberly and with a full under-
standing of the risk and is animated
by a desire to benefit the human race
by securing information which is not
otherwise obtainable the act may well
be regarded not simply as excusable
but as distinctly commendable. His
motives would resemble that of the
patriot who becomes a soldier. The
latter, when he enlists, hopes to es-
cape the enemy's bullet, yet realizes
that he is imperiling his life. But he
is willing to risk it for the sake of
others and the world applauds. If,
with a similarly lofty purpose and
without disregarding the interests of
family or employer, a man submits to
a test like that conducted by Major
Havari, why is he not equally a he-
ro?"—Literary Digest.

A LITTLE KNOWN FACT.
That the majority of serious diseases
originate in the kidneys. Foley's Kid-
ney Cure is guaranteed. No sure to
get Foley's. Chas. Neptole of At-
water, Ohio, was unable to work on
account of kidney trouble. After us-
ing Foley's kidney cure four days he
was cured.
J. C. Gilbert.

ONLY ONE LEFT.
There is now only one prisoner in
the jail at Metropolis, Ill., and he
is Jim Pritchard, of Graves county,
Ky., charged with shooting Constable
Grant Hunkin back of Brookport. The
other prisoners were acquitted or sent
to the penitentiary at the term of
court just closed.

**The Skin AN INDEX TO
THE BLOOD**
Millions of little glands or tubes connect the blood with the skin, and through
these small drain pipes perspiration passes out, carrying with it the impurities that
are thrown off by the blood. Should the pores of the skin be entirely closed for
even a brief space of time, and the poisonous matter forced back into the circula-
tion, instant death would result. In addition to the sweat glands, the skin is
provided with certain others which pour out upon it an oily substance, keeping
the skin pliable and soft and protecting it from heat and cold. The blood and skin
are so closely related that whatever affects one seriously affects the other with the
functions of the other. Not only health, but life itself, depends upon perfect harmony
between the blood and skin. When, therefore, the blood becomes poisoned from any cause, it quickly
manifests itself upon the skin in the form of various eruptions. By the character of the
eruptions we are enabled to determine the nature of the poison or humor in the blood,
as every disease originating in the blood has its own peculiar sore or pimple. The
skin is not only affected by the poisons generated in the system, but poisons from
without enter through the open glands or pores and quickly infect the blood.
Mercury rubbed upon the skin will produce Rheumatism, and Poison Oak and Ivy
and various other plants gain easy access to the blood through the application
of some and ulcers, pimples and various eruptive diseases. By the character of the
sore we are enabled to determine the nature of the poison or humor in the blood,
as every disease originating in the blood has its own peculiar sore or pimple. The
skin is not only affected by the poisons generated in the system, but poisons from
without enter through the open glands or pores and quickly infect the blood.

Mr. Frank Dean returned from Fulton today at noon.

Miss Minnie Holland, of Murray, is at the Palmer.

Mr. E. H. Simmons, of St. Louis, was in the city last night, returning home today.

THE PRESIDENT'S PRAYER.
AN IMPRESSIVE SCENE BEFORE THE OPERATION.

I must confess that the most profoundly interesting note in this great occasion has been the unveiling of the president's beautiful religious spirit, writes James Creelman from Buffalo.

In that first terrible hour when he believed that he was about to die he turned his thoughts heavenward and bore himself like a Christian gentleman. When he was lifted on the operating table Dr. Mann said:

"Mr. President, we intend to cut into you at once. We allowed one president to die, but we don't intend to lose you."

"I am in your hands," murmured the president.

Mr. McKinley was lifted on the operating table, stripped for the dreaded ordeal. The doctors were ready to administer ether. The president opened his eyes and saw that he was about to enter a sleep from which he might never awake. He turned his great hazel eyes sorrowfully upon the little group. Then he closed his lips. His face was suddenly lit by a tender smile. His soul came into his countenance. The man was moved. A singular and almost supernatural beauty possessed him, mild, childlike and serene. The surgeons paused to listen.

"Thy kingdom come, Thy will be done." The voice was soft and clear. The tears rolled down Dr. Myner's face. The president raised his chest and sighed. His lips moved once more.

"Thy will be done—"

Dr. Mann passed with the keen knife in his hand. There was a lump in his throat.

"For thine is the kingdom and the power and the glory."

The eyelids fluttered faintly, beads of cold sweat stood on the bloodless brow—there was silence. Then silence succeeded prayer. If there is a nobler scene in the history of Christian statesmen and rulers than this, I have not heard of it.

The inference of divine intervention is almost irresistible when one considers that the first surgeon who had a chance to operate on the president waited until Dr. Mann arrived. He was a man of great ability but he was once forced to retire to a sanitarium because of a mental disturbance. That was years ago. Who can say what thoughts controlled him as he stood beside the wounded president?

LAWTON KLEIN DEAD.
Hartford, Ky., Sept. 13.—Mr. Lawton Klein, an estimable young man of this community, died at his residence here after three weeks' illness of typhoid fever. He was twenty-two years old. He was a printer by trade, and for a number of years had been an employe of the Hartford Herald at this place. He leaves a mother and a brother.

THE RIVER NEWS.

Observations taken at 7 a. m. River 7.5 on the gauge, a fall of 0.3 in last 24 hours. Wind north and light breeze. Weather cloudy and cooler. Temperature 70. Fell. Observer.

Regardless of the threatening weather last night the floating Dramatic and Vaudeville exhibition at the wharf was crowded with people.

The City of Knoxville is due from Gloucester this afternoon, Captain Clark says he is meeting with much greater success than he had any idea of. The boat leaves on return trip tomorrow at noon.

The Dick Fowler departed for Cairo at 8:15 this morning with good hostesses.

Billy Crozier, former clerk of the Dick Fowler, has located in Evansville and bought the cigar stand in the Hotel Acme.

The Tennessee arrived from Tennessee river with a good trip which is being discharged. She leaves on return trip tomorrow at 5 p. m.

Captain Gus Henshell has named his new boat Helen Gould.

The Woolf left for Caruthersville this morning to bring up a tow of logs.

The J. H. Richardson from Evansville arrived and departed on return trip this morning with good business.

The waterways convention which meets here the 23d of next month has more importance attached to it in a commercial sense than any meeting that was ever held in this city.

The Lyda has laid up here for a few days.

The Donnar leaves Nashville tomorrow for this port.

Business rather quiet in river circles today.

TODAY'S NEWS

Mr. George Warfield Still Temporary Day Ticket Agent.

AUDITOR TITUS LEAVES

Today Was a Bad Day According to Some Superstitious Colored Employees.

THE REPAIR OF GRAVEL CARS

Mr. George Warfield is temporary ticket agent, the newly appointed man having not yet arrived.

Traveling Auditor T. W. Titus finished his work yesterday and went to Litchfield last night to check out the agent there.

This is Friday and the 13th of the month and the superstition of the colored employees of the railroad is amusing to hear. One colored man refused to go under a car this morning to make a connection because he said he was afraid the car would break down and kill him. The foreman asked him why he thought it would break down today and not any other day and the man replied that he feared the accident because it was Friday and the 13th of the month. Several of the colored hands refused to work at all.

The big sledges used in the local Illinois Central blacksmith shops are very hard to wield, no matter how strong a person may be, and many persons are caught by the blacksmiths whom the former watch work.

Visitors are sometimes permitted to the shops and in many cases they become meddlesome, as far as tampering with the tools are concerned. Several days ago a young man entered the shops with a special permit to go through them and when he arrived at the blacksmith shop the men were in the act of hammering a turn in a big piece of iron. He picked up one of the large sledges and asked it it was very hard to wield.

"Not particularly," one genial blacksmith said "if you are use to it." He was told that he could try his hand if he cared and see how hard the sledge worked. The young man said he believed he would try and grabbing the sledge up began to hammer the iron alternating with three other helpers. After several minutes work he dropped the sledge in sheer exhaustion while the other men staid at their post for five minutes. He soon found that the work is far from being easy and now see how the blacksmith gets his "brawny arms."

Mrs. W. J. Donahue and wife, of Louisville, who have been visiting the family of Mr. George Richards, the I. C. car inspector, returned home this morning.

Mr. W. C. Shepherd, the former I. C. ticket agent, was checked out yesterday afternoon and left on the 6 o'clock train for Saratoga, Miss., to accept a position in the transportation department of the Gulf and Ship Island road. His wife and daughter will follow shortly.

Master Mechanic Burton returned from Chicago this morning on the accommodation train. His family will follow him Monday.

The following employees of the car shops of the I. C. here went to Gravel Switch this morning to repair twenty-seven gravel cars. Messrs. Frank Gardner, William Theobald, Henry Overhosen, John Shore and E. Oonriens. The latter will act as foreman.

Operator J. B. Thomas, of the train dispatcher's office, has recovered after a week's illness and reported for duty this morning.

The family of Train Dispatcher J. O. Ferguson have arrived from Princeton and will make this city their future home.

Mr. Sam Gibson, the flagman at the Tennessee street crossing is again at his post waving the flag. He has been on the "retired" list since the work on the title was commenced. The title is now being used by the public.

Mr. John Connell, the stenographer of Trainmaster Flynn, will go to Louisville Sunday on business.

Mrs. James J. McLaughlin, wife of the I. C. machinist, presented him with a fine girl baby this morning.

HOKMAN'S NEW PLANT.
Hickman, Sept. 13.—The Hoop Box company has finished its large plant in this city and will begin work this week. The plant is furnished with all the modern appliances and will give a large number of laborers employment.

WICKLIFFE WELLS.
GENTLEMAN HERE IN THE INTEREST OF THE OIL PROJECT.

Mr. C. E. Dennison, of Union City, is in the city in the interest of the Wickliffe oil wells. He has placed a good deal of stock in the city. The contract for boring the wells has been let and the work is expected to commence now in a few days.

PADUCAH KINDERGARTEN.
Mrs. Stuart will open a kindergarten and primary school September 16 at 416 North Seventh street. Terms \$3 a month.

The Smith Business College.
The college is open both day and night. Students can enter any time, either for the day session, or night session. No classes. Individual instruction.
Call on or address John D. Smith, Jr., Corner Third and Madison street.

HART SAYS:
Let Her Go!
and Down She Went.

The waterways convention which meets here the 23d of next month has more importance attached to it in a commercial sense than any meeting that was ever held in this city.

The Lyda has laid up here for a few days.

The Donnar leaves Nashville tomorrow for this port.

Business rather quiet in river circles today.

SAFE BLOWERS.
ROB A STORE AT HAMPTON STATION, TENN.

Clarksville, Tenn., Sept. 13.—The general merchandise store of J. T. Hancock, at Hampton Station, near here, was entered and the safe blown open. A hole a foot in diameter was torn in the side of the building, the safe wrecked, the telephone destroyed, evidently for the purpose of preventing a message being sent to the officers here, and other damage done. Only \$10 in cash was secured, a large amount of money having been placed in bank yesterday by Mr. Hancock, the robbers securing the small balance remaining. There is no clue to the guilty persons.

The store was entered by someone who had a key to the front door.

BIG HUNT.
MR. GEORGE ROBERTSON RETURNS FROM A TRIP TO RED RIVER.

Mr. George Robertson has returned from a week's hunt on Red River. Mr. Gus G. Singleton, of the city, was also in the party, and proceeded to Texas. The party of eight killed ten deer and much smaller game. They had good sport, but the ticks and chiggers became so troublesome that they broke camp.

WICKLIFFE WELLS.
GENTLEMAN HERE IN THE INTEREST OF THE OIL PROJECT.

YOU'D BETTER HURRY.
School bells are ringing, and its high time you bought that pair of Shoes for the youngster.
That pair MEANS the Famous
White Cat School Shoe
For they are the only Shoes in this wide world today that make boys' and girls' feet look trim and neat and keep toes in. They're made for misses, for little men and for still littler people.
You'll Find Them At
ROCK'S.
321 BROADWAY.

50c TIES FOR 25c

THE MANUFACTURER
Had too many. He offered them to us at half price, provided we would take a big quantity—that's just what we did and as a result you can buy New Fall Ties at half price. They're in four-in-hands, tecks, club house and imperial shapes, all latest shades, all 50c quality. In this sale they go for 25c.

Many New Autumn Goods Now on Display

Lots More Coming

We're Preparing For a Great Fall Business.

We have bought the largest lot of wool goods we ever owned before. We will be able to supply you attractive dress goods for \$30 to \$1.75 a yard. It's not all to yet, but much is on the way here.

A prominent wool dress goods sale. Special for this week. Some marvelously low prices. We have many three, four and five yard lengths for this week's selling. Here are two, three and four yard lengths of pretty plaid dress goods for 60c to 75c a piece, pieces that were formerly as high as 90c a yard; economical authorities will find these appropriate for school dresses.

There are eighteen five yard lengths of these worthy plaids, for school and home hand wear at from 75c to 95c a piece.

We believe that every economical mother with four to thirteen year old daughters will find remnants here this week that she will be glad she came to see about.

For One Week

We'll make a bargain table of cotton dress goods suitable for children's school wear. On this table you'll find a big assortment of cotton dress goods in two, three, four, five, six, seven, eight and nine yards.

From this table you may select neat dress patterns for almost any member of the family. The assortment of styles are bright and catchy, and the prices low enough to make it a money saving event to all who respond to this week's effort.

Try our show white cotton flannel, enough for a quilt, 25c.

Ladies' heavy fleece lined vests and pants—special quality for 25c.

Children's tip-top union suits, 25c.

Removable and worthy ribbed hose for both boys and girls—all ages and sizes—not the low cheap sort, but the how good quality, at a straight 10c and 15c a pair price.

Shetland flannel and Saxony yarn at away below last year's prices. The salesman who furnished our stock made us think there was a regular craze on Shetland flannel, therefore we bought too much. The moral is: We'll sell it too cheap, just to get you to using it that you may help us get rid of our big stock. Do you understand? We believe you do. Then come here for Shetland flannel and Saxony yarn.

We've some very choice new belts at 25 and 35 cents each.
